

CD
2017

16th International Conference on Chiroptical Spectroscopy

June 11th - 15th 2017
University of Rennes 1
Campus de Beaulieu
RENNES - France

Topics

Protein Folding

Biopolymer Structural Characterisation (Proteins, DNA, RNA, Carbohydrates, Lipids)

Nanoparticles, Materials and Surface science

Supramolecules

VCD and ROA

Theory and Computational Chemistry

Homochirality

Instrumentation (SRCD Advancement, New Techniques)

Biopharmaceutics (Process Analytical Technology, Biosimilarity and Product Comparison)

Stereochemistry and Structural Determination

Call for papers

Submissions of abstracts for oral and poster presentations are welcome from scientists, engineers, researchers and practitioners world-wide.

What about Rennes ?

Rennes is a pleasant city of Brittany (west-coast of France). It is full of history and culture, close to famous and beautiful touristic sites (Mont-Saint-Michel, Saint-Malo, Châteaux de la Loire, ...). You will enjoy its celtic music, its pancakes, cider, sea-food, ...

It is three hours far from Paris by car, and easily accessible by plane, or by high-speed train through Paris.
